HIV Cases: 735
Syphilis Rate: 9.3 per 100,000
Gonorrhea Rate: 271.1 per 100,000
Chlamydia Rate: 715.9 per 100,000

updated: 5/2015

(*) denotes data that should be used with caution. For example, the State Center for Health
Statistics notes that infant mortality rates based on less than 10 deaths are unreliable and
should be interpreted with caution. Teen pregnancy rates that are based on fewer than 20 cases
are also viewed as unstable.

(†) Rate reports on legal induced abortions per 1,000 females, ages 15-44.
